ATHLETES IN KEEN STRUGGLE.

KNICKERBOCKERS WIN TROPHY BY NARROW MARGIN.

Only Three Points Between First and Third clubs at Metropolitan Championships Flanagan Beaten in Weight Events New World's Record With the Discus.

The Metropolitan Association of the A. A. U. held its annual track and field meeting yes-terday at Celtic Park and it was a remarkable meeting in many ways. The entry list was a record breaker, the crowd was fair-sized and enthusiastic, the competition keen and sensational and the long list keen and sensation and the long of events was pulled off without a single hitch from a managerial standpoint. The point trophy for the club scoring the greatest number of points had something to do with the size of the teams entered. the clubs were out in full force and with perve strained and an eye to a big tally Men long relegated to retirement were trotted out and made to contribute their little mite of and any one at all who had the veries was encased in an athletic suit and t was a battle royal from first to last be-

was a battle royal from first to last to a the Knickerbocker A. C., New York and Pastime A. C., but the "cherry-ond" men were freighted with a little nere luck at the finish, and they won by a core of 54 points, the New York A. C. being ond, with 523, points, and the Pastimes nely third, with 51 points. The scores of other clubs were: New West Side A. C., Union Settlement A. C., 10: Greater New rk Irish A. A., 13: Star A. C., 8; Xavier A. A., 8 St. Bartholomew A. C., 4: Mohawk A. C. Brony, 3, and West Side Branch Y. M. C. A. Thus the Knickerbocker A. C. will hold hallenge cup presented by A. G. Spalding

challenge cup presented by A. G. Spaiding one year part one of the greatest surprises of the meeting was the defeat of John Flanagan in the avyweight department. It was a sort of sterioo for the sturdy frishman, especially it was hinted before the meeting that he did a new set of records up his sleeve. In the hatumer he was beaten by John R. De the formance of 168 feet 7 inches, which the way, is the longest throw recorded a college man in any country. The "56" is a still greater surprise to Flanagan, for only secured second place to J. S. Mitchell, seemingly regarded "has been," who manied to hurtle the big weight 35 feet 6 ches. ches. Though the performances were spirited mid of an unquestionably high class on the hole, yet only one record fell by the way-de. This was in throwing the discuss and rehero of the occasion was Martin J. Sherika of the Pastime A. C. He succeeded in aling the Grecian implement a distance 126 feet 8½ inches, which is more than to feet further than the former world's cord, made by himself a couple of months.

Feor the athlete scoring the highest number of points in the field events there was a prize presented by the Pastime A. C. and John R. DeWitt and Richard Sheldon tied for this, both with a score of 10 points. A prize similarly conditioned was presented by James D. Boyd in the track events, and for this three athletes tied with 10 points—P. J. Walsh, J. H. Wright and Harry Arnold.

YANKEE DEFEATS THE RAINBOW. J. Rogers Maxwell's Seventy-Footer Wins a Good Race at Larchmont.

The Yankee, the 70-footer owned and sailed by J. Rogers Maxwell, won yesterday in a race on the Sound off Larchmont. She defeated the Rainbow, owned by Cornelius Vanderbilt, and sailed by E. A. Willard. The two boats are closely matched and the Yankee won chiefly through being handled better than the Rainbow. The race was in a special regatta of the Larchmont Yacht Club and it was expected that there would he a large fleet of starters. Only two 70-footers started, as the Mineola is out of commission and the Virginia, which is expected to come on from Newport to take part in the fall races, has not yet arrived in these waters. Charles Smithers's 75-foot senconer Muriel Elmina did not show up. The races between the Yankee and Rainbow and the Effort and Dorwina made up in quality what the regatta lacked in quantity, and those who went out to see the sport saw two fine contests.

Early in the day the outlook was not very encouraging. There was fog and no wind. The fog gradually cleared away, but when the time to start the yachts came there was no wind and a long wait followed. Shortly after noon a gentle zephyr glided over the Sound from the southwest and this grew stronger until there was a nice sailing breeze and the Regatta Committee signalled the courses. The 70-footers were to sail twice around a fifteen-mile triangle. The first leg was east three-fourths north six miles, the second southwest five-eighths west six miles and the third north-northwest three miles The preparatory signal was made at 12:30 clock and the manœuvring began. was a reach to the first mark, with the wind on the starboard quarter. Reaching lib topsails were sent up in stops and balloon

topsails were sent up in stops and bandon fore staysails were set.

Half a minute before the starting signal the Yankee passed under the stern of the Rainbow and stood for the line. She was at the windward of her rival and as they went over the line the Rainbow led by five seconds. Billy Lavigne who manages the Acme A. C. of Oakland, Cal., is after the bout between Frank Erne and Jimmy Britt, which has been talked about. In a letter to a friend in Buffalo Lavigne writes that he is confident of clinching the contest in a short time.

bow seemed to have a little more way on than the Yankee and she increased her lead a trifle. At the first mark the Rainbow was leading by twelve seconds. It was a beat to the next mark and the big jib topsails were quickly changed for small ones. The two yachts took the port tack and Mr. Maxwell kept the Yankee footing with her topsail drawing all the time while the Rainbow was pinched and her headsails were constantly aback. The Yankee gradually picked up on the Rainbow and she pulled right throught her lee and began to forereach across her bow so that the Rainbow made a short hitch in toward the Long island shore. The wind off Hempstead harbor freed somewhat and let the yachts head up considerably, so that the Yankee, the leading boat, soon made up what windward position the Rainbow had gained by standing in toward the sore.

bow had ga ned by standing in toward the shore.

At the Hempstead mark the Yankee led by 1 minute 18 seconds, so that on this leg she had gained a minute and a half on the Rainbow. Then it was a broad reach across the Sound with booms to starboard. The Yankee carried a balloon jib topsail and set her spinnaker ready to use if wanted. The Rainbow used a big jib topsail and balloon fore staysail, and later on she used her spinnaker, but it did not do any good. At the end of the first round the Yankee led by 2 minutes 37 seconds. They gybed around the stakeboat, lifting their headsails over the stays and reached on toward the next mark. The Yankee took in her balloon jib topsail when about two miles had been sailed and set a reaching jib topsail, and at the next mark she was leading by 2 minutes 27 seconds. On this leg the Rainbow picked up 32 seconds. On the windward leg the Yankee lost one second, out she gained a little on the reach across the Sound and won the race by 2 minutes 37 seconds.

The Effort and Dorwina sailed twice around

The Effort and Dorwina sailed twice around an eleven-mile triangle. The maneuvring at the start between these two was pretty. The Effort, sailed by Addison G. Hanan, got the lead by five seconds, and then both indulged in a luffing match which lasted about
five minutes. The Effort held her redvan- tage, and when they squared away on their courses the Effort soon opened a big gap be- tween the two, which she increased to the finish, finally winning by 4 minutes 7 seconds. The times at the different marks follow:

PHILADELPHIA. Aug 30—The New Yorks won the game with the Philadelphias today in the ninth inning, when the locals did some ragged work. This, in connection with two singles and a man hit, counted two runs, enough to top the Quakers' score. One of the largest crowds of the season was on hand, 3,076 persons being present. In the ninth, with one out, Brodie was hit. Bowerman singled to right and as Barry fumbled the ball Brodie went to third. Lauder was thrown out. Mathewson's single scoring Brodie Barry threw to the plate, but was too late to catch the runner. Douglass threw wild to catch Matty at second and Bowerman scored the winning run.

Manhattan Beach Crowd Clamors So Loudly That the Referee Changes His Decision-Bedell and Lawson Disqualified for Pocketing Negro Cyclist.

A striking demonstration of the American love of fair play in sport was had at the Manhattan Beach track yesterday afternoon. What appeared to be team work and comtination to prevent Taylor, the negro, from winning, started it. The crowd in attendance was about the smallest ever seen at the Beach track, but with unanimity it arose and shouted its disapproval. The clamor was such that after two races had been run and the referce. Wallace Merrinew, had consulted with the promoters of the meet, the chairman of the N. C. A. Board of Control and others of the N. C. A., he reversed his decision and allowed the protest that had been promptly filed by Taylor. Subsequently Taylor beat out both Kramer and McFarland, who were start in the five-mile handicap. This was the finishing touch that made Taylor the here of the day. Until the final of the championship race

everything was tame. The semi-finals nar-rowed the contest down to Lawson, Taylor Kramer and John Bedell. They started it the final in the order named, Lawson being on the pole. Team work began at once Taylor fell in line behind Kramer, and Bedeli taking Lawson in tow, jumped to the front In the backstretch this pair had opened a gap of four lengths between themselves and the other two. Then Taylor shot away from pulled out so as to force Taylor to take the pole and as soon as he got there they closed in on him. He could not get the lead, and then they slowed the pace. Then Kramer, coming from five or six lengths in the rear, sprinted past the other two and their colored rival. Coming up the stretch, Taylor, as a result of his predicament, quit. Then Bedell and Lawson sprinted for the place, and Lawson

The game turned out to be a howers' contest in which low scoring predominated, while the sharp fielding of the Philadelphians proved an important factor in their victory by 42 run. The Philadelphians, having the advantage of batting first, were expected to run up a large score, but so well did M. R. Cobb, the local crack, bowl that they were all disposed of for a total of 117. J. B. King was the only man to make any stand, but he played capital cricket in his innings of 40, which was more than one-third the total score. M. R. Cobb was responsible for seven wickets at a cost of 7 runs, and C. H. Clarke also did good work with three for 15.

A majority of the boys at the camb leave for New York next week to get in line for the football season. P. M. Seixas, who has charge of the camp, says the various schools will be represented strongly this season. The boys are stronger and show more interest in the game. The announcement in The Sun that the headmasters were to hold a meeting next week for the purpose of reorganizing the New York Interscholastic Athletic Association has stirred up those interested in the association. From the sentiment shown delegates will be on hand to fight any movement to take the power out of the boys' hands.

All arrangements have been perfected for the polo tournament in the closing day of the camp. The winning team will receive a silver loving cup, as well as individual medals.

Corriganto Breed Only for His Own Racing

Corrigan to Breed Only for His Own Racing Purposes. LEXINGTON, Ky., Aug. 30 -Ed Corrigan has determined to breed hereafter only for his own racing purposes. He is still in the market for stud matrons, but is buying young market for stud matrons, but is buying young mares with race records. He proposes to limit his new breeding plant so the production will never overreach the demands of his racing stable. He never expects to become a market breeder, and in the future he will breed only horses to bear on the turf his green and white sash.

"I am getting too old," he said, " to attempt to go into the breeding business in competition with the public breeders of to-day. I fancy myself outclassed, but I do claim to the old methods to pull me through financial storms the rest of my days."

match by correspondence between the New York and Pennsylvania chess associations, York and Pennsylvania chess associations, with 254 players a side, Pennsylvania has scored 1985, as against 1903, for the Empire State. Inasmuch as the Quakers had at one time a lead of twenty points, New Yorkers have good cause for thanks that the margin has been so materially reduced. There remain 121 games yet to be accounted for. Another large match of like character between the East and West of the United States, under the auspices of the Pillsbury National Correspondence Chess Association of Chicago, has been decided in favor of the Western team by totals of 58½ to 54½, with two games unfinished. There were 115 players a side in this contest, each pair playing but one game.
